- Avoid excessive play. It is recommended that parents monitor their children for appropriate play.
- Take a 10 to 15 minute break every hour, even if you don't think you need it.
- If your hands, wrists or arms or eyes become tired or sore while playing, stop and rest them for several hours before playing again.
- If you continue to have sore hands, wrists or arms or eyes during or after play, stop playing and see a doctor.

## **WARNING - Battery Leakage**

The Nintendo DS contains a rechargeable lithium ion battery pack. Leakage of ingredients contained within the battery pack, or the combustion products of the ingredients, can cause personal injury as well as damage to your Nintendo DS. If battery leakage occurs, avoid contact with skin. If contact occurs, immediately wash thoroughly with soap and water. If liquid leaking from a battery pack comes into contact with your eyes, immediately flush thoroughly with water and seek medical attention.

To avoid battery leakage:

- Do not expose battery to excessive physical shock or vibration.
- Do not disassemble, attempt to repair or deform the battery.
- Do not dispose of battery pack in a fire.

# PROLOGUE

The day he saw her as they passed on the street,  
it was love at first sight.

But being an ordinary, shy boy,  
he could never get a girl like her.

Being the most sought after girl in high school,  
she had the brains, body, and smile that made  
all of the guys' hearts melt.

What should have ended in a crush  
was suddenly turned upside down  
when an unusual man with bunny ears on his head  
suddenly appeared.

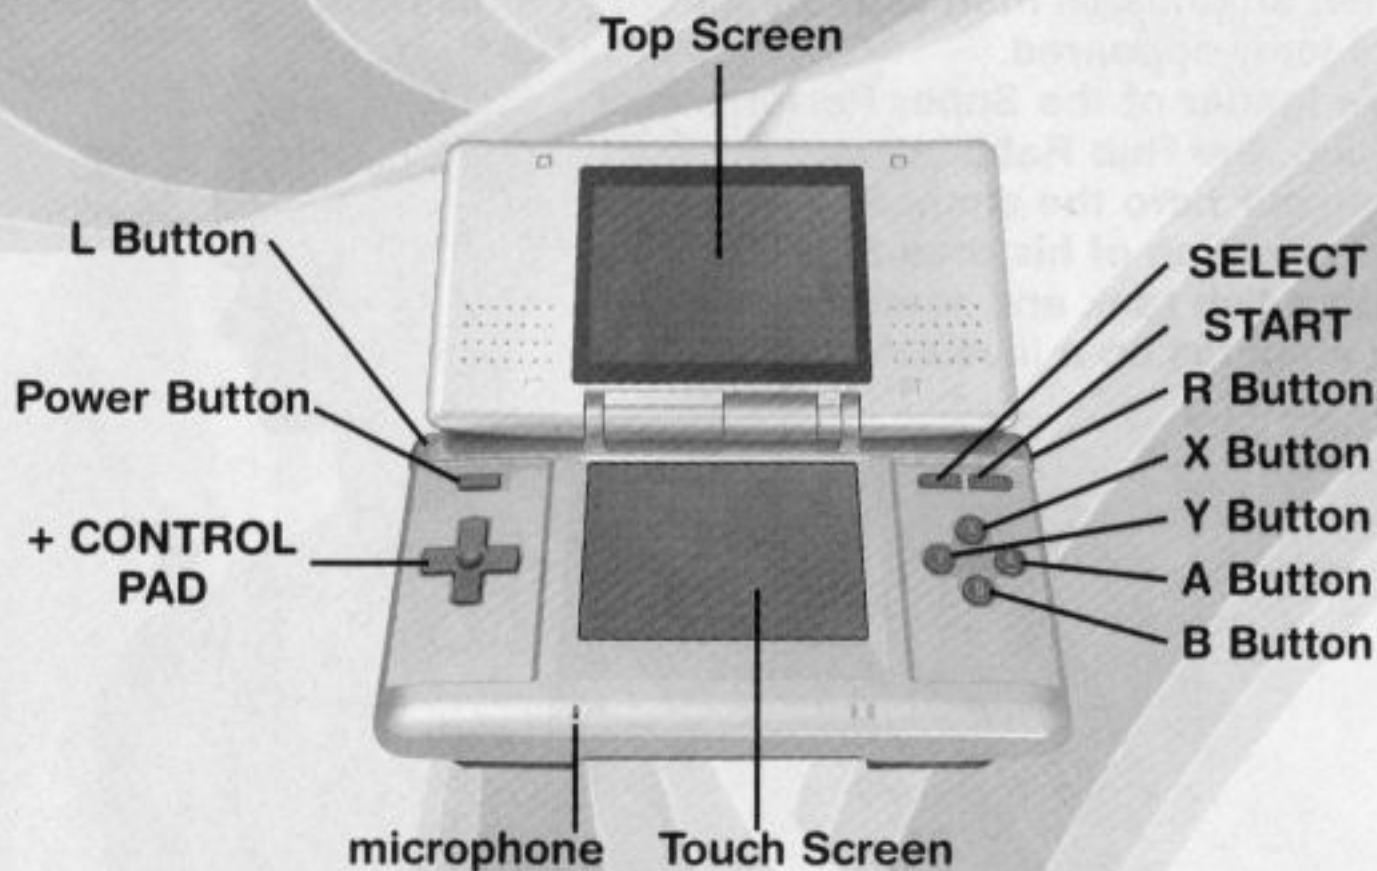

This leader of the Super Performance  
Group, the Rub Rabbits,  
gave our hero the chance to earn  
the affection of his dream girl.

With a fish tank and some crazy stunts,  
he embarks on a love story unlike  
any other...

# CONTROLS

● Nintendo DS™

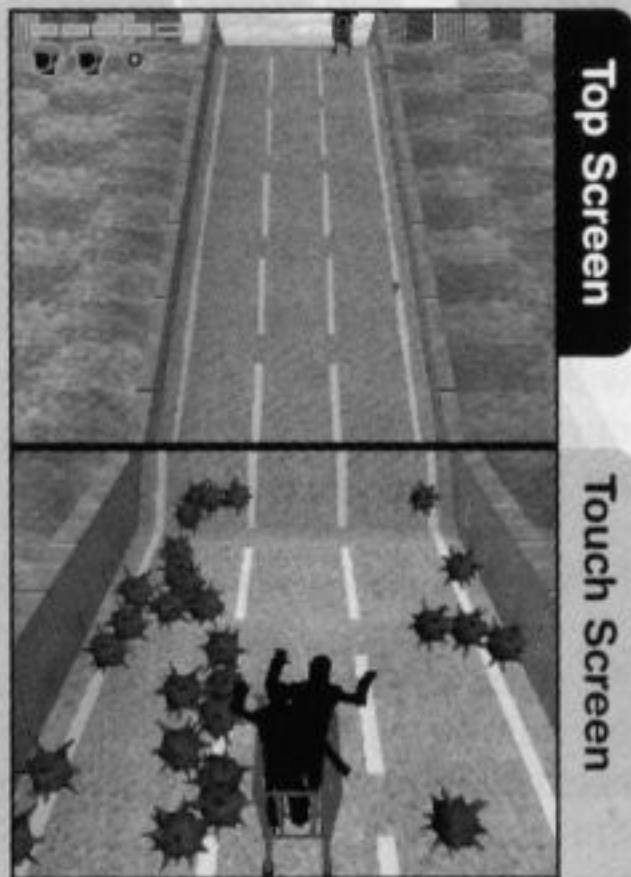

## ● LCD Screens

Nintendo DS™ has two LCD Screens. In this instruction booklet, the tab(s) next to the screen-shots indicate which screen shows which.

While both screens display visuals of the game, all stylus-controlled actions (see p.8) take place on the Touch Screen. Do not use the stylus on the Top Screen, as nothing will happen.

## ● Basic Controls

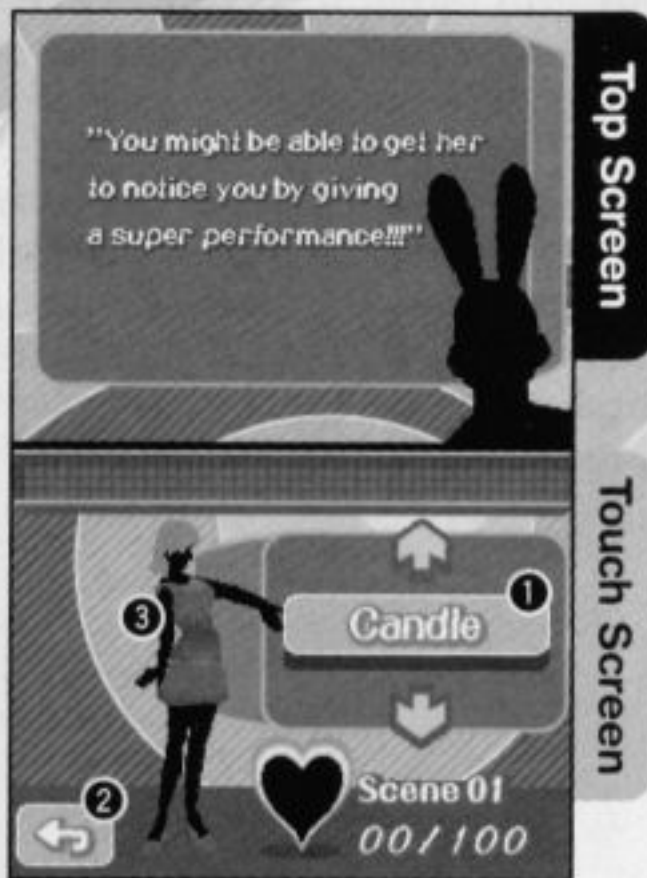

In this game, basic operations are performed by moving the stylus across the Touch Screen.

### Menu Controls

Simply touch the menu item you want to select. For example, if you touch ❶ on the Touch Screen, you will start the game **Candle**. You can return to the previous screen by touching ❷.

Never touch the girl (❸).

As you can see, operations such as selecting a menu item or returning to the previous screen can be done by simply touching the on-screen menu items or icons displayed on the Touch Screen. Buttons such as the + Control Pad and the A Button are not used in this game.

## Controls in the Games

The main character joins a Super Performance Group, the Rub Rabbits, to get the attention of the girl he loves. His love will be challenged by a series of Hard Performances ordered by the leader. All are completed by moving the stylus over the Touch Screen (some by blowing at the Touch Screen/microphone).

The controls vary with each of the different scenes in the game. Specific controls will be explained to you by the leader of the Rub Rabbits before each game.

## Touch it!

Just touch the Touch Screen.  
There are some situations where  
you must press a button, select  
something, or even touch some-  
thing so dangerous that will strain  
your nerves. Touch it carefully and  
accurately.

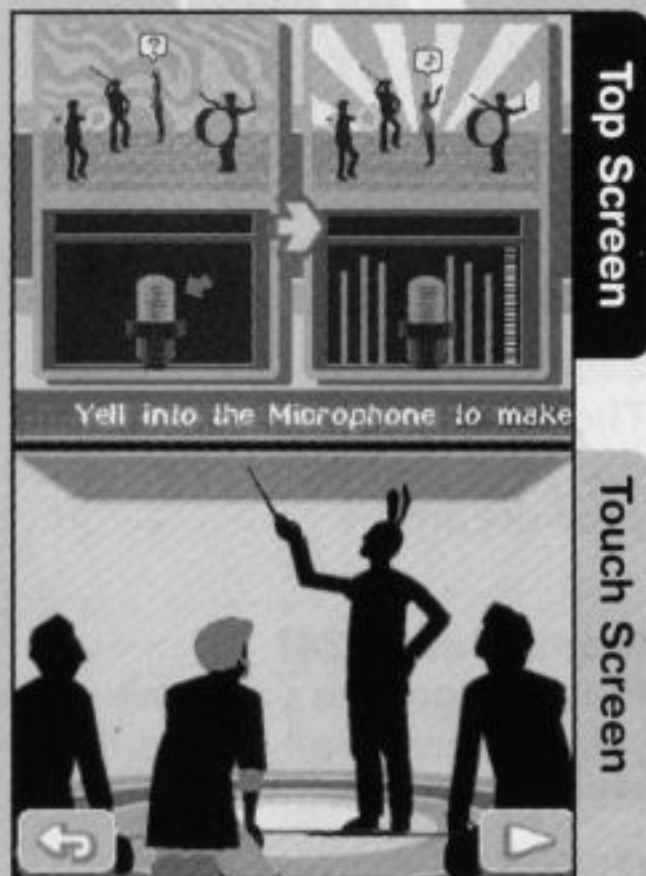

## Breathe on it!

This is a new type of control! Well, sort of. In other words, blow a puff of air. Where? Blow directly onto the Touch Screen. The microphone below the Touch Screen will sense your breath.

## ...and Yell at it!

This is also a new type of control! As with the breathing, yell at the Touch Screen. The microphone will pick up your voice. You can yell "yeow!," "I love you!" or simply "Sega!" but be careful not to scare people in public places or late at night.

# MAIN MENU

Touch the Touch Screen during the demo to display the Main Menu. Touch the menu item on the Touch Screen to select the mode you wish to enter.

## **Story (P.15)**

## **Maniac (P.26)**

Change the appearance of the girl! Change her hairstyle, clothes, and shoes to your liking. The parts can be obtained by playing the Memories Mode or by finding Hidden Rabbits (p.19) in the Story Mode.

# STORY

In order to win the girl's heart, join the Rub Rabbits and successfully complete the Super Performances presented to you.

## ● Flow of the Game

The Story Mode can be divided into three types of scenarios. Each scenario consists of one to three games. If you clear the scenario, a story demo will be played.

**Super  
Performances**

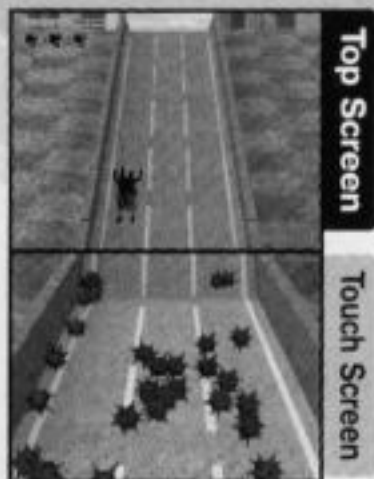

**Boss Battle**

**Love Scene**

To attract the girl's attention, you will complete various performances with help from the Rub Rabbits. Out of the available performance options, select and play one. If you perform well, you earn a certain amount of "Love Points." If the total amount of "Love Points" reaches 100, the game advances. If you fail in your performance, you will lose points.

**Performances**

**Success!**  
You earn  
Love Points!

**Failed!**  
You lose  
Love Points!

Just when things are starting to take a positive turn with the girl, a crisis emerges. It's the boss battle! Fight to protect her!

After successfully making your way through the crisis, you're on to the Love Scene. Through the Touch Screen, you'll learn even more about each other.

Find the Hidden Rabbit and clear the game to be rewarded with a new item for the Maniac Mode.

Some demonstration scenes may contain more than one Hidden Rabbit, but you can only uncover one at a time.

## ● Pausing the Game

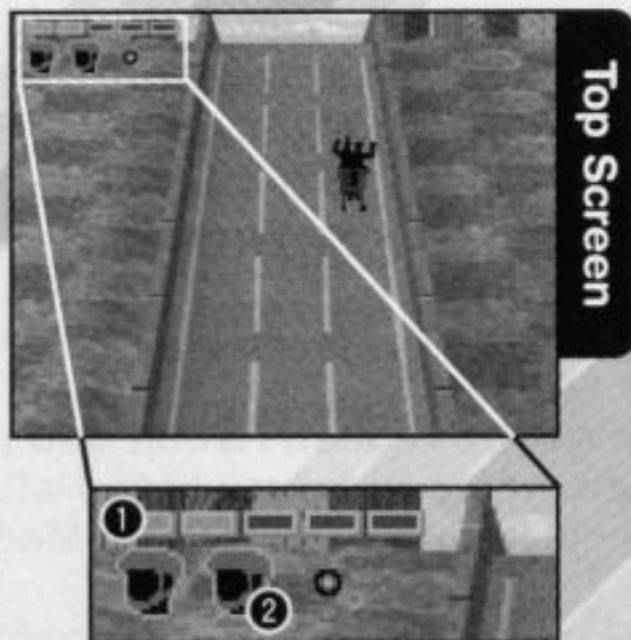

During the game, press **START** to pause the game. Either press **START** again or touch **Continue** on the Touch Screen to resume the game. You can quit the current game and return to the Game Select Screen by touching **Quit**, but beware, by disappointing the girl, you will lose Love Points.

## ● Levels & Number of Challenges

In the top left corner of the Top Screen, the current level of the game and the number of challenges left (misses allowed) are displayed. ❶ indicates the level of the game. The level increases with each successful completion, becoming more challenging as you progress. The example here indicates that Level 2 is being played, and the game will be cleared if you complete Level 5. ❷ indicates the number of lives left. The example here indicates that there are three lives to the game, with two challenges left. Some games may have a time limit, or other information (location varies).

## ● Examples of the Games

### Rub it! — Goldfish

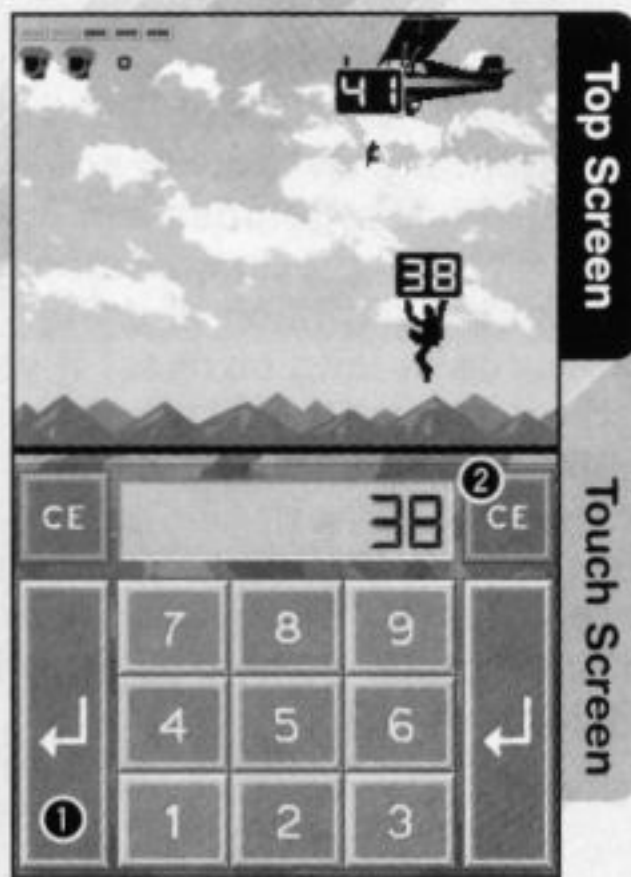

A member of the Rub Rabbits accidentally swallowed some goldfish! The goldfish are in danger if you don't do something. Touch the stomach and rub upwards in long strokes! If you are able to move the fish towards the throat and out of the mouth, you clear the game! Sometimes the water inside the stomach will flow downward. Rub the stomach quickly to keep the fish moving up!

## Touch it! — Parachute

The Rub Rabbits are sky diving from an airplane! It's a crazy stunt! Enter the number displayed quickly to open the parachute, or else they will crash into the ground!

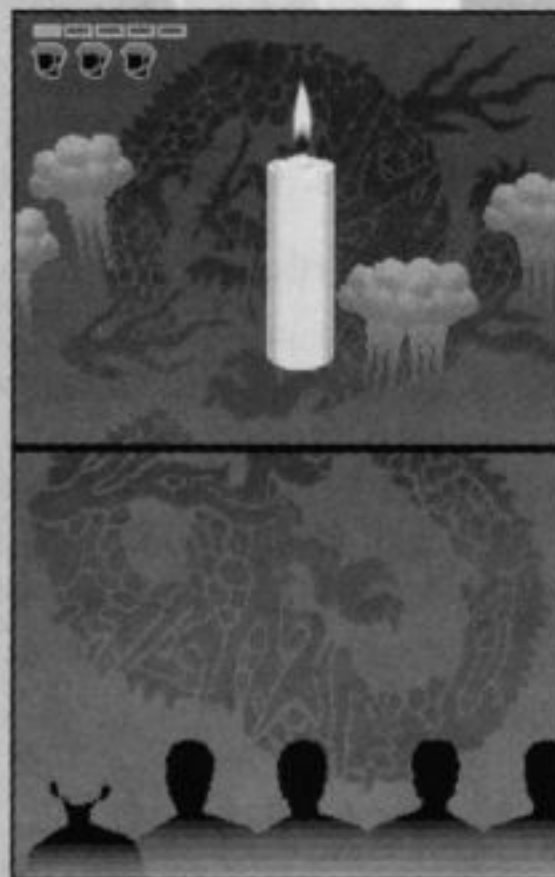

Touch the numbers to enter, and touch ❶ to input. If you enter a wrong number, touch ❷ to clear.

## Breathe on it! — Candle

It's the attack of the Giant Candles from a foreign dimensional space! Help the Rub Rabbits blow the candles out! You can rub the Rub Rabbits' backs upwards to make them blow a puff of air towards the candle. But there is an easier way! Breathe directly on the microphone below the Touch Screen. They will all blow air!

## ● How Do I Get Parts for the Girl?

There are three ways to obtain parts. Find the Hidden Rabbits, play Memories Mode, or insert specified Game Boy® Advance games into the Game Pak slot. If you can't find the Hidden Rabbits, watch the demo sequence before each game of the Story Mode. Rabbits aren't hidden at random places. Try touching somewhere "meaningful."

## ● I Can't Do Fine Operations Well!

Those of you who have trouble completing fine operations such as rubbing small spots, make sure you are using the Stylus that came with Nintendo DS™. With it, you can make fine operations more easily. For those of you who have just bought your Nintendo DS™ and don't know where it is, look behind the system! Also read the instruction booklet that came with it. Please don't use anything other than the Stylus, as foreign objects may scratch or even damage the Touch Screen.

## ● Voice Recording

You can record your voice (up to 1.5 seconds) in this game. Press the + Control Pad Down and the Y Button simultaneously. When the microphone icon appears on the Touch Screen, speak into the microphone to record. You can play back your voice by pressing the + Control Pad Down and the X Button simultaneously. While the voice is being played, press the + Control Pad Left to play slowly; Right to play fast.
